

Jeroen Kooman (born 1966) is working as a clinical nephrologist and professor at the department of internal medicine, division of nephrology at the University Hospital of Maastricht, the Netherlands. He has served as a member of guideline committees of the Dutch Society of Nephrology, ERA-EDTA and ISPD. He is co-author of 206 peer-reviewed papers and various book chapters, the great majority on clinical aspects of dialysis therapies and treatment of patients with end stage renal disease. Next to his research interests, he also has practical experience in the clinical care of elderly patients with chronic and end stage renal disease.
