

The Institute for Physiological Chemistry regularly invites internationally renowned scientists to present their recent advances in the field of Life Sciences and Molecular Medicine to students, researchers and doctors of both faculties.

Molekularbiologische Kolloquien

in der Hollystrasse

Vorträge WS 19/20:

14. Nov.	Krishnaraj Rajalingam University Medical Center, Mainz and IMCB, A*STAR Singapore	<i>"Precision medicine in Thyroid Cancers and Targeting RAS"</i>
12. Dec.	Monilola Olayioye Institute of Immunology and Cell Biology, University of Stuttgart	<i>"The YIN & YANG of Rho Signaling in Tumor Progression"</i>
16. Jan.	Sabine Strahl Center for Organismal Studies, Heidelberg University	<i>"O-Mannosylation: an essential protein modification conserved from yeast to humans"</i>
06. Feb.	Henner Farin Institute for Tumor Biology, Georg Speyer Haus, University of Frankfurt	<i>"Organoid models for Colon Cancer progression and phenotypic dependence on the stromal context"</i>

When? Thursdays, 18:00 h

**Where? Institute for Physiological Chemistry,
Hollystr. 1, Seminarraum III, 1st Floor**

Everybody is welcome !

Prof. Dr. Guido Posern
