Laparoscopic Operating Techniques in Urology
Workshop Programme 2014

Academy of German Urologists
Workgroup for Endoscopy,
Laparoscopy and Robotic-assisted Surgery
Certified Training Centre
by the European Board of Urology

Medical Faculty of the Martin-Luther-University
Halle-Wittenberg
www.medizin.uni-halle.de/kur/

Department of Urology and Kidney Transplantation Centre
Head of department: P. Fornara, M.D., Professor and Chair
Dear Colleagues,

We would be very pleased to welcome you to one of our upcoming laparoscopic workshops.

We offer beginners in laparoscopy the opportunity to achieve specific technical experience through active participation in laparoscopic operations by working with a pelvitrainer and with large animal models (pigs) under the direction of experienced trainers. Simultaneously, we wish to demonstrate details of complex laparoscopic operations (such as laparoscopic living donor nephrectomy, radical tumor nephrectomy, adrenalectomy, radical prostatectomy) for advanced laparoscopically active urologists.

We hope that our course offer will meet the expectations of our guests, regardless of whether they are beginners in laparoscopy or more experienced colleagues and we look forward to your visit.

This continuing education and further training programme will receive 31 CME points from the Academy of German Urologists through the medical association Sachsen-Anhalt.

Yours sincerely,
Paolo Fornara
Programme: Day 1

07:45 – 08:00  Welcome of participants
               Presentation of the operation and training programme

08:00 – 15:00  Active assistance in selected urological laparoscopic procedures (simultaneously in 2 ORs)
               Interactive Discussion
               • Propaedeutic aspects – instruments, patient and port positioning, intra- and extraperitoneal approach
               • Anaesthesiological management of laparoscopic operations in urology
               • Urological laparoscopic ablative techniques in benign and malignant diseases (with video clip demonstrations)

approx. 15:30 pm Departure to the research and training centre
"Medizin im Grünen"
c/o HCx Consulting GmbH
Ulmenstr. 12
15864 Wendisch Rietz
(transfer or self-arranged journey: please indicate on registration form)

Evening at your own disposal
